Strawman: Inadvertent Interchange Posting for Public Information

1. **Inadvertent Interchange Posting for Public Information.** Inadvertent Interchange energy (MWh) accumulated by Balancing Authorities and Scheduling Agents (e.g. ISOs) shall be posted as public information.
 - 1.1. **Hourly Inadvertent Interchange Values.** Hourly Inadvertent Interchange energy (MWh) accumulation shall be posted for public information within 3 hours following the end of each respective hour.
 - 1.2. **Inadvertent Interchange Balances.** Inadvertent Interchange energy (MWh) Balances shall be posted on an on-going basis. Each hour the accumulated Inadvertent Interchange balance will be adjusted when the respective hourly Inadvertent Interchange data is posted.
2. **Access to the Inadvertent Interchange Data.** Access to the Balancing Authorities and Scheduling Agents Inadvertent Interchange energy (MWh) data shall be granted by either NAESB or NERC. Although the data is considered public information, access will be limited to those entities that request access, have a need to know, and are approved by either NAESB or NERC.
