

Subj: **October 6th IIPTF meeting**
Date: 9/24/2003 9:54:00 AM Central Daylight Time
From: [Steve Terelmes](#)

Please forward this to any interested parties that I may have neglected to include.

Folks,

I am sending out this unofficial email in an effort to garner support from those who have been active in the NAESB IIPTF task force. In our last meeting we voted in a motion to move from the discovery phase to the standard writing phase (exact wording of the motion can be found in the meeting minutes).

In an effort to support this motion I would ask people to focus their attention on any and all discussion we have had over the past 8 months. During this time most of you have been vocal about one or more issues. This is good. However, now we need to start making decisions. I am going to structure our October meeting around discussing and voting on motions that will move us toward our goal.

I hope to submit some motions for discussion (to be posted on NAESB's web site). However, if I post all the motions then I won't be able to say much during the meeting. This is where you come in. Because you all have participated in the meetings and most of you have opinions on the topics discussed, I'm asking that each of you consider posting at least one motion relating to an issue that you feel strongly about.

(Posting can come from any interested party, not just NAESB members. Please keep motions to a maximum of 100 words. All posting must come to NAESB from Bob Goss, Lou Oberski or myself. Email motions to one of us and we'll get it posted.)

Thank you,
Steve Terelmes
