- A-5 Revision to Business Practice Standard

Abstract / Discussion (E-1, E-3, E-4):This request is in conjunction with Columbia's Request #R96023 (Balancing Contract). This would allow the Service Requester to nominate two quantities on a single nomination line item, one at the receipt location and one at the delivery location. The resulting imbalance would be handled through the Balancing Contract. Although R96023 was approved, METF determined that a second quantity is not necessary. The additional quantity can be accommodated in the existing Nomination document by sending a second line item stating the Balancing Contract and the quantity that will be applied to it.
