- A-5 Revision to Business Practice Standard

Abstract / Discussion (E-1, E-3, E-4):This new document would be used to transmit preliminary scheduled quantities. Transportation Service Provider would send to Service Requester after nominations have been validated and before final scheduled quantities are available.

Instead of a new document, METF recommends adding a code value to the current Scheduled Quantity document to indicate whether scheduled quantities are preliminary. Status of quantity can be specified at the document level. This will be a revision to the 'BCA' segment of the X12 transaction set.
