

RECOMMENDATION TO GISB EXECUTIVE COMMITTEE

Request #: 96084

Request to add new Charge Types codes to the Charge Type codes table of the Invoice Data Set Implementation Guide.

The Market Settlement Task Force of the Information Requirements Subcommittee recommends the addition for six additional Charge Type codes to the Charge Type codes table of the Invoice Data Set Implementation Guide.

Plant Thermal Reduction
Storage Inventory Cycling Charge
Parking and Loaning Charge
Storage Operational and Maintenance Commodity
System Balancing Charge
Scheduling Tolerance Charge

Request from Northern Natural Gas Pipeline.

Type of Request (check all that apply) (E-5):

- A-3 New Document (Data Dictionary attached)
- A-1 New Data Element (Data Dictionary attached)
- A-6 Revision to Data Element (Data Dictionary attached)
- A-2 New Code Value (Table attached)
- A-2 Revision to Code Value (Table attached)
- Revision to Business Process Documentation
- Revision to X12
- A-4 New Business Practice Standard
- A-5 Revision to Business Practice Standard

Abstract / Discussion (E-1, E-3, E-4):

In the original request, the requester ask for the addition of 8 new charge type codes. In reviewing the request, the task force determined that two of the eight charges were accommodated by other charge codes currently included in the list of Charge Type codes. The group also reviewed the use of the codes to determine if the codes were associated with common business practices in the natural gas industry so that it could determine if a more generic descriptive title could be used for the new charge type codes. After discussing the request with Northern Natural, it was determined that the charge types were associated with common business practices in the natural gas industry and that more generic description could be used. The descriptions in this request are the more generic descriptions.

Applicable Documents:

GISB Standard 3.4.1 - Invoice Data Set

Associated Revisions:

Updates needed to the above stated implementation guides/standards. Technical Task Force.

Is Revision Required to Support an Existing GISB Standard? If So, State Standard Number and Language:

N/A

Applicable to Upstream/Downstream Process? If So, State Task Force Referred To:

N/A

Sense of the Room Results: Support 19 Oppose 0
