REQUEST FOR CLARIFICATION OR INTERPRETATION

Date: 12/19/96

Requester Name: Michael R. Hansen

Company: Columbia Gulf Transmission Company

Phone, Fax, e-mail: phone (713) 267-4221; fax (713) 267-4233

GISB Standard #: 1.4.3. (Request for Confirmation) and 1.4.4.
(Confirmation Response) and 1.4.5. (Scheduled Quantities) and 1.3.7.

Clarification or interpretation request:

What are the expected values in the Ending Date/Time data elements in the Request for Confirmation, Confirmation Response and Scheduled Quantities data sets? According to standard 1.3.??, when nominations are submitted for a date range, each date within the range is considered as an original nomination. For the Confirmation and Scheduled Quantities data sets, should the Ending Date/Time be for a single gas day or should the Ending Date/Time be the Ending Date/Time in the Nomination data set?

Possible interpretations or clarifications, if known:

Consistent with standard 1.3.??, the Ending Date/Time for the Request for Confirmation, Confirmation Response and Scheduled Quantities data sets should reflect a single gas day and not be tied to the Ending Date/Time as provided in the Nomination data set.
