RECOMMENDATION TO NAESB WGQ EXECUTIVE COMMITTEE

Requester: KeySpan Request No.: R02002 and
2002 Annual Plan Item 10 - Order 587-N

5.3.z1 Proposed Standard

All Transportation Service Providers (TSPs) should support the following recall notification periods for all released capacity subject to recall rights:

(i) Timely Recall Notification:

(a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 8:00 a.m.;

(b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 9:00 a.m. (Central Clock Time);

(ii) Early Evening Recall Notification:

(a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 3:00 p.m.;

(b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 4:00 p.m. (Central Clock Time);

(iii) Evening Recall Notification:

(a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 5:00 p.m.;

(b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 6:00 p.m. (Central Clock Time);

(iv) Intraday 1 Recall Notification:

(a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 7:00 a.m.;

(b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 8:00 a.m. (Central Clock Time); and

(v) Intraday 2 Recall Notification:

(a) A Releasing Shipper recalling capacity should provide notice of such recall to the TSP and the first Replacement Shipper no later than 2:30 p.m.;

(b) The TSP should provide notification of such recall to all affected Replacement Shippers no later than 3:30 p.m. (Central Clock Time).

5.3.z2 Proposed Standard

For recall notification provided to the Transportation Service Provider (TSP) prior to the recall notification deadline specified in NAESB WGQ Standard No. [5.3.z1] and received between 7:00 a.m. and 5:00 p.m., the TSP should provide notification to all affected Replacement Shippers no later than one hour after receipt of such recall notification.

For recall notification provided to the TSP after 5:00 p.m. and prior to 7:00 a.m., the TSP should provide notification to all affected Replacement Shippers no later than 8:00 a.m. after receipt of such recall notification. (Central Clock Time)

5.3.z3 Proposed Standard

When a Transportation Service Provider (TSP) sends Internet E-mail notification for recalling of capacity to each affected Replacement Shipper, the subject line of the E-mail should include the following information separated by commas in the following order: (1) "Recall", (2) the recall notification period, (3) the Effective Date in YYYYMMDD format, (4) the name or abbreviation of the TSP (excluding commas), and (5) the TSP's D-U-N-S® Number.

RECOMMENDATION TO NAESB WGQ EXECUTIVE COMMITTEE

**Requester: KeySpan Request No.: R02002 and
2002 Annual Plan Item 10 - Order 587-N**

The body of such E-mail notification should contain at least the affected Replacement Shipper's Contract Number, the quantity of capacity being recalled, and the Offer Number or Award Number, if necessary to uniquely identify the capacity being recalled.

Where supported by the TSP, for recalls that are effective at non-standard times, the appropriate recall notification period should be included in the subject line and the effective time of the recall should be in the body of the E-mail.

Where TSPs offer capacity recall notification mechanisms in addition to Internet E-mail, the notification should include at least the same level of information.

5.3.z4 Proposed Standard

The Replacement Shipper should provide the Transportation Service Provider (TSP) with no more than two Internet E-mail addresses to be used for recall notification. The obligation of the TSP to provide notification is waived until at least one of the addresses has been provided.

5.3.z5 Proposed Standard

The Releasing Shipper should provide capacity recall notification to the Transportation Service Provider (TSP) through the TSP's Customer Activities Website. The recall notification should specify the recall notification period for the specified effective gas day, as well as any other information needed to uniquely identify the capacity being recalled.

5.3.z6 Proposed Standard

Recalled capacity notices should indicate whether penalties will apply for the gas day for which quantities are reduced due to a capacity recall.

5.3.z7 Proposed Standard

A Transportation Service Provider should support the ability for the Releasing Shipper to specify, as a condition of a capacity release offer, which recall notification period(s), as provided in NAESB WGQ Standard No. [5.3.z1], will be available for use by the parties.

5.3.z8 Proposed Standard

A Transportation Service Provider should support the ability for the Releasing Shipper to specify, as a condition of a release, whether the Releasing Shipper's recall notification must be provided exclusively on a Business Day.

5.3.z9 Proposed Standard

Affected Replacement Shippers should manage internal distribution of notifications of recall received from a Transportation Service Provider.

5.3.z10 Proposed Standard

When capacity is recalled, it may not be reput for the same gas day.

RECOMMENDATION TO NAESB WGQ EXECUTIVE COMMITTEE

**Requester: KeySpan Request No.: R02002 and
2002 Annual Plan Item 10 - Order 587-N**

5.3.z11 Proposed Standard

The deadline for notifying the Transportation Service Provider of a reput is 8:00 a.m. to allow for timely nominations to flow on the next gas day.

5.1.z1 Proposed Principle

The Releasing Shipper should provide capacity recall notification to its affected Replacement Shipper(s) at the same time it provides notification to the Transportation Service Provider. The mode of notification should be mutually agreed between the parties.
