FROM: Rae McQuade, Executive Director
RE: Request For Comments - Status of Request No. R97124
DATE: September 8, 1999

Dear GISB Members and Interested Industry Participants:

Request No. R97124, for which the comment period on its recommendation ended September 1, is delayed for voting by EC members until the Information Requirements Subcommittee and the Technical Subcommittee can complete its work on the recommendation. It was issued for comment prematurely - the Information Requirements Subcommittee has not completed the increased analysis on data elements related to this request, including definition of usages for EBBs and assignments to data groups. Once this work is complete, the revised recommendation will be re-released for industry comment.

Best Regards,

Rae McQuade
