Subject: Minor Clarifications and Corrections

Listed below are minor clarifications and corrections to code values previously approved by the Executive Committee. The documents affected are the Nomination, Request for Confirmation, Confirmation Response, Scheduled Quantity, and Scheduled Quantity for Operator. It is necessary to modify the code values because the ASC X12 organization assigned and approved different code values than what we originally requested. These items will be added to the Technical Change Log.

TECHNICAL CHANGE LOG (all instructions to accomplish the recommendation)
