Subj: Request for Enhancement of Existing Standard
Date: 96-12-20 15:00:23 EST
From: mrhansen@juno.com (Michael R Hansen)
To: gisb@aol.com

REQUEST FOR INITIATION OF A GISB STANDARD
OR
ENHANCEMENT OF AN EXISTING STANDARD

Date of Request: 12/19/96

1. Submitting Entity & Address:

COLUMBIA GULF TRANSMISSION COMPANY
PO BOX 683
HOUSTON TX 77001-0683

2. Contact Person, Phone #, Fax #, Electronic Mailing Address:

Name: Michael R. Hansen
Title: Team Leader, Confirmations / Allocations
Phone: (713) 267-4221
Fax: (713) 267-4233
E-mail:

3. Description of Proposed Standard or Enhancement:

The Payment Remittance data set (3.4.2.) needs an additional data element to indicate the party being paid. (There are three data elements referring to the party making payment but none stating who is to receive the payment.)

[Note: There is a similar request for clarification. If the clarification resolves this issue, then this request will be withdrawn.]

4. Use of Proposed Standard or Enhancement (include how the standard will be used, documentation on the description of the proposed standard, any existing documentation of the proposed standard, and required communication protocols):

Identify the party to receive the payment. Since there will be 3rd Party software providers as well as pipeline computer systems that accommodate multiple service providers, it is necessary to be able to determine the party being paid. Without this data element, there is the potential of the payment remittance being forwarded to the wrong party or the remittance being forwarded to no one since the recipient is unknown.

5. Description of Any Tangible or Intangible Benefits to the Use of the Proposed Standard or Enhancement:

The payment remittance will be able to reach the intended party.

6. Estimate of Incremental Specific Costs to Implement Proposed Standard or Enhancement:

Minimal – the paying party already knows who they are paying.

7. Description of Any Specific Legal or Other Considerations:

Unknown.

8. If This Proposed Standard or Enhancement is Not Tested Yet, List Trading Partners Willing to Test Standard or Enhancement (Corporations and contacts):

Unknown.

9. If This Proposed Standard or Enhancement Is In Use, Who are the Trading Partners:

Unknown.

10. Attachments (such as: further detailed proposals, transaction data descriptions, information flows, implementation guides, business process descriptions, examples of ASC ANSI X 12 mapped transactions):

Service Provider: Same definition as in the nomination, Header level, Usage = M.
