3. Description of Proposed Standard or Enhancement

Koch Gateway Pipeline Company requests that a data element of "Maximum Rate Indicator" be added to the Nomination dataset with a usage of BC. This field would be added at the same level as the Bid Transportation Rate.

<b>Business Name (Abbreviation)</b>	<b>Definition</b>	<b>Data Group</b>	<b>EBB Usage</b>	<b>EDI / FF Usage</b>	<b>Condition</b>
Maximum Rate Indicator (Max Rate Ind)	Indicates that the Service Requester has determined that the requested transportation will be billed at the max. rate or at a lesser rate.	TSDG	BC	BC	Used where a Transportation Service Provider requires clarity on the rate for proper scheduling.

**Request for Initiation of a GISB Standard for Electronic Business Transactions or  
Request for Enhancement of a GISB Standard for Electronic Business Transactions**

4. Use of Proposed Standard or Enhancement (include how the standard will be used, documentation on the description of the proposed standard, any existing documentation of the proposed standard, and required communication protocols):  
This field would be used by Service Requesters moving gas under Interruptible transportation service.

5. Description of Any Tangible or Intangible Benefits to the Use of the Proposed Standard or Enhancement:

Since rate may be a key component of the scheduling process, it is imperative that the TSP know within the nomination process that a Service Requestor is moving gas at the maximum rate. This indicator lets the Service Requestor provide a clear indication that the maximum rate will apply.

6. Estimate of Incremental Specific Costs to Implement Proposed Standard or Enhancement:  
None

7. Description of Any Specific Legal or Other Considerations:

None

8. If This Proposed Standard or Enhancement Is Not Tested Yet, List Trading Partners Willing to Test Standard or Enhancement (Corporations and contacts):

None.

9. If This Proposed Standard or Enhancement Is In Use, Who are the Trading Partners :

This field is currently used within our Proprietary Nomination Product. All Service Requesters are using this product at this time.

10. Attachments (such as : further detailed proposals, transaction data descriptions, information flows, implementation guides, business process descriptions, examples of ASC ANSI X12 mapped transactions):
