RE: Errata Notice - Standards for Business Practices of Interstate Natural Gas Pipelines (Docket No. RM 96-1 et al)

Dear Ms. Bose:

The North American Energy Standards Board ("NAESB") herewith submits this errata notice to the Federal Energy Regulatory Commission ("FERC" or "Commission") regarding the *Report of the North American Energy Standards Board regarding NAESB WGQ Version 2.1 under RM96-1* (Report) filed by NAESB on July 23, 2013 in Docket No. RM96-1-000. On page two of the Report in the second paragraph of the Version 2.1 Summary the Report states that transportation service provider's proprietary code will utilize D-U-N-S® Numbers as a replacement for Location Common Codes. This statement is incorrect and should be redacted from the Report. The corrected report can be accessed from the following link: [http://naesb.org/pdf4/corrected\\_ferc072313\\_wgq\\_version\\_2.1\\_filing.pdf](http://naesb.org/pdf4/corrected_ferc072313_wgq_version_2.1_filing.pdf).

Please feel free to call me at (713) 356-0060 or refer to the NAESB website ([www.naesb.org](http://www.naesb.org)) should you have any questions or need additional information regarding the NAESB WGQ Version 2.1 Standards.

Respectfully submitted,

*Rae McQuade*
