OATI webRegistry, Phase 3 Announcement

OATI webRegistry, as part of Phase 3 implementation, will be making changes to improve efficiency and increase functionality this year.

The changes are as follows:

- Addition of adjacency data and new Registry data types that incorporate the Western Electricity Coordinating Council (WECC) Registry
- Retirement of the WECC Registry within the WECC Interchange Tool (WIT)
- Retirement of the CSV and MDB publication file formats and transition to the XML publication file format
- Retirement of legacy TSIN items retained in webRegistry as part of the initial transition

NAESB, WECC, and OATI will continue to communicate with the industry on a continuous basis to inform participants and notify entities of any needed actions. Implementation of the changes will not take place until early 4th Quarter 2013.

As part of these communications, NAESB, WECC, and OATI will be hosting free online information sessions to provide the industry an opportunity to learn more details about Phase 3 activities, which begin in May 2013.

Scheduled information sessions (all times listed in CDT):

Tuesday, May 21, 2013

11:00 AM - Noon

3:00 PM - 4:00 PM

Tuesday, June 04, 2013

11:00 AM - Noon

3:00 PM - 4:00 PM

Thursday, May 23, 2013

11:00 AM - Noon

2:00 PM - 3:00 PM

Thursday, June 06, 2013

11:00 AM - Noon

2:00 PM - 3:00 PM

To register for an information session, please send your preferred date and time to registration@oati.net.

For any questions on the next phase of webRegistry, please contact support@oati.net.
