

MISSION STATEMENT

Coalition for Renewable Natural Gas, Inc. (RNG Coalition) advocates for sustainable development, deployment and utilization of renewable natural gas so that present and future generations will have access to domestic, renewable, clean fuel and energy.

ABOUT

RNG Coalition is the trade association for the Renewable Natural Gas industry in North America. Founded in 2011 as a 501(c)6 non-profit, RNG Coalition established a platform for policy advocacy, public education, and promotion of industry best practices. As of April 2021, RNG Coalition is comprised of 290 members representing more than 98% of the RNG produced in North America by volume. RNG Coalition is feedstock and technology neutral and supports all sustainable end-use applications of RNG.

Through advocacy and education RNG Coalition seeks the recognition and inclusion of RNG as an essential element of any alternative or renewable energy fuel standard program. RNG Coalition advocates for RNG procurement programs (regulated or voluntary) and favorable treatment of RNG as a viable investment and alternative energy resource in Federal, State and Provincial laws and regulations.

RNG's diverse and international membership is comprised of producers, consumers, consultants, small businesses, large corporations, labor, utilities, municipalities and universities representative of each sector of the RNG industry.

RNG Coalition is dedicated to the sustainable advancement of RNG as a clean, green, alternative, and domestic energy resource - and as a key component and important part of the solution to addressing global climate change. RNG Coalition champions the Sustainable Methane Abatement & Recycling Timeline (SMART) to capture and control methane produced from the 43,000+ aggregated organic waste sites in North America by 2050.
